

Disability Access Checklist: Determining Accessibility in Facilities and Provision of Services

The information and surveys contained in this document will enable Local Equal Opportunity Coordinators to perform required system evaluations and develop plans, which meet the accessibility needs of customers with disabilities who come to SC Works Centers for services, based on real data. This checklist addresses requirements of Section 504 of the Rehabilitation Act of 1973, as amended, as well as those under the Americans with Disabilities Act, as amended.

Accessibility is ever changing. Technology, standards, and needs are constantly evolving and should be viewed as an on-going process. System evaluation will capture both strengths and weaknesses and allow the development of a concrete plan to increase the level of accessibility in local programs. The plan should identify priorities for barrier removal and assist in planning for continual improvement.

These tools are designed to simplify complex issues while maintaining the integrity of the goal of accessibility and the requirements of the law. Questions regarding specific situations that arise within programs should be expected. Call the DEW Office of Equal Opportunity for additional information.

Take the following steps:

- Complete the applicable sections of the checklist for the Workforce Development Board's administrative entity and for each SC Works Center/facility open to WIOA applicants, participants, and the public at-large.
- Develop internal action steps to rectify issues identified as a result.
- Develop written policies covering employment and program practices.
- Maintain copies of each checklist and any supporting/resulting documents on file.
- Submit each checklist to the DEW Office of Equal Opportunity by March 31st every year.

Throughout this form there are response questions. Please note that several of the text boxes have a 180 character limit, but do not indicate as such. Please attach any supplementary information if additional space is needed.
