JAG Competency-based Curriculum

The Jobs for America’s Graduates (JAG) curriculum is based on the participant development of several core competencies, including:

• Career Development
• Job Attainment
• Job Survival
• Basic Skills
• Leadership and Teamwork Skills
• Personal Skills
• Life Survival Skills
• Work Place Skills

JAG Specialists use modules in designing an instructional program that best fits their participants. JAG modules are provided as a valuable resource but Specialists may use other materials to achieve competencies as long as attainment is documented.
